

Jabra Motion UC / Travel & Charge Kit

Jabra GN

Bluetooth Headset for VoIP Softphone, Mobile Phones and Tablets

The Jabra Motion series lets you focus on the conversation, not technology, with intuitive features that adapt to your environment and movement. Connect to all of your phones using one headset and transfer calls between phones as you head out of the door. Roam up to 100m/300ft and enjoy all-day talk time with exceptional call quality and comfort.

- One headset for all your phones
- Easy and intuitive call control
- Superior call quality and all-day talk time
- Custom fit for optimal comfort
- World-class wireless range
- Up to 100 meters/300 feet hands-free communication for your VoIP softphone, mobile phone and tablet.
- USB adapter enables UC integration.

Key Features:

One headset for all your phones

Featuring multiple-phone connectivity, you can stay connected to all your phones using the same headset. Transfer calls from your desk phone or VoIP softphone to your mobile, and continue conversations as you head out of the door.

Easy and intuitive call control

With HD voice, noise-reducing speakers and a noise cancelling microphone, you can hold lifelike, vibrant conversations. Jabra SafeTone™ enhanced hearing protection technology limits average volume exposure during your working day to keep it within acoustic standards.

Superior call quality and all-day talk time

Experience crystal-clear call quality wherever you are - even in noisy, windy environments. The intuitive 'Power Nap' mode makes the headset power down when not in use to give you more talk time.

Custom fit for optimal comfort

The unique design enables you to modify the height of the adjustable speaker arm for maximum comfort. Plus, three eargel tips are included for a perfect fit.

World-class wireless range

Why stay fixed to your desk when you can have the freedom to move in and outside of the office? With a wireless range of up to 100m/300ft from your phone, you don't need to put a call on hold when you leave your desk.

Product Benefits:

■ Busylight

Avoid call interruptions with the busylight indicator

Jabra busylight helps you to cope with open office environment challenges and lets people clearly know you are on the phone. The indicator turns red when you are on a call and keeps you from being interrupted.

■ Call Assist

Call Assist lets you take a call without a click

Jabra's intelligent Call Assist lets you take a call without a click. Built in Motion Sensor technology turns the headset on when you pick it up or touch it, and automatically answers the call when you place it on your ear. If you are already wearing the headset, you can accept or reject a call using just your voice.

■ HD Voice – Wideband Audio

High quality audio for crystal-clear conversations

Enjoy high-definition sound with HD Voice and get crystal-clear, intelligible communication. You get life-like, vibrant conversations where you can focus on the content and don't have to struggle to understand what the person on the other end of the line is saying.

■ HiFi Audio Streaming

Stream music, podcasts and GPS directions

Jabra Bluetooth® devices featuring A2DP allow you to stream music, podcasts, and even GPS directions in HiFi quality to give you an enhanced sound experience.

■ Intelligent Volume Control

Adjusts call volume automatically

With Jabra Intelligent Volume Control, you are now free from touching the volume control. The audio level adapts automatically to the interference noise around you, allowing you to hear what is being said wherever you are.

■ Jabra Connect

Customize your headset and control your devices

The Jabra Connect app interacts actively with your headset and lets you customize your user experience to suit your preferences, as well as control your calls on multiple devices.

■ Noise Blackout™

Eliminate background noise interference

Jabra Noise Blackout™ technology eliminates disturbing background noise such as wind, surrounding conversations or traffic, to enhance your voice. Now talk freely without raising your voice excessively.

■ PeakStop™

Safe sound and superior hearing protection

PeakStop™ technology immediately removes potentially harmful loud sounds or tones before they reach your ears, and keeps the sound level within a safe range to protect your hearing.

■ Power Nap Mode

Automatically enters power nap mode

With Jabra Power Nap Mode, you can now leave your headset in the car or on your desk for days and still have it ready when you are. Your device automatically goes into sleeping mode when inactive. A great power management feature that gives you more talk-time and less charging.

■ SafeTone™

Enhanced hearing protection

Jabra SafeTone™ includes Jabra PeakStop™ and Jabra IntelliTone™, our enhanced hearing protection technology. Benefit from clear, crisp and automatic limitation of average volume exposure during your workday according to acoustic standards and regulations. A feature that offers you significant confidence, safety and comfort while enhancing the quality of your communication.

■ Smartphone & Tablet Ready

Ready for use with the latest smartphones/tablets

Your Jabra device is designed with future-ready technology to be fully compatible with the latest smartphones and tablets on the market.

■ Tap-To-Connect

Connects devices with a simple touch

Near Field Communication technology (NFC) makes it easy for your Jabra device to instantly connect and interact with phones, tablets, and interactive tags. It requires no more than a simple touch. Just tap the phone and the Jabra device together and you are ready to talk or stream your music.

■ Voice Controls

Be notified and take control with your voice

Jabra Voice Controls cover both Voice Commands and Voice Guidance functionalities. With Voice Commands, you can answer/reject a call, play music, call back, and so on. Your own words control your device. Voice Guidance verbally notifies you of crucial status updates, such as connectivity and low battery

■ Wind Noise Protection

Block intrusive wind noise

Wind Noise Protection enables you to keep the thread of your conversation in open air environments without any interference. Walk, bike, run, work outside and talk with no need to raise your voice or shout to be heard

■ 8-Hour Battery Life

Talk up to 8 hours with no battery life concerns

A wireless audio device would not be a useful tool without an incredible battery life. Even with so much performance packed into such a small space, it still lasts up to 8 hours on a single charge. Allowing you to talk and work, as long as you want.

■ Jabra Software Applications

Easy device configuration and softphone integration

Customize and control your audio device settings with Jabra's software applications. You get full integration and remote call control for the latest generation of softphones.

■ Multi-device Connectivity

Manage all your calls from a single headset

Multi-device connectivity technology lets you manage phone calls from several different devices such as desk phones, tablets, PCs and smartphones, with a single headset. You get greater flexibility and an enhanced user experience.

■ Remote Asset Management

Remote mass deployment and device management

Configure and implement the company's audio devices 100% remotely from one central point. You get the latest features and functionalities in one go with Jabra Xpress, a web-based solution. You can also get a complete overview of all Jabra audio devices installed in the IT network with Jabra Xpress' asset management component.

■ **UC Plug-And-Play**

Plug-and-Play with all leading UC platforms

Jabra devices feature intuitive call control and seamless connection to all leading UC applications and softphones. They are easy to set up and easy to use, leaving you free from any installation expertise or extensive training requirement.

■ **Up to 100 Meter/300 Feet Wireless Freedom**

Hands-free communication up to 100 meters/300 feet

Featuring Bluetooth® Class 1, your Jabra device enables you to connect to a vast range of devices, from smart phones and tablets, to laptop computers. You get wireless mobility up to 100 meters/300 feet, giving you full control of your hands-free Jabra voice solutions. Now you can call and multitask on your own terms.
